Recording ke tips

- Phone ki built-in screen recorder se record karein, khud ko dikhane ki zaroorat nahi.
- Shaant kamre me bolein, ya sirf on-screen text rakhkar music laga dein.
- Hamesha phone ko seedha (vertical) rakhein - WhatsApp ke liye.
- Recording se pehle app ka data saaf rakhein - sirf demo data, asli mareez ka data nahi.
- Aakhir me ek line me apna naam aur number bolein.
